GREEN AND GOLD GUARANTEE LABEL

Reproduction of the "Standard" Green and Gold Label

THE "Standard" GREEN AND GOLD Guarantee Label on "Standard" Plumbing Fixtures designates the very best value obtainable in Porcelain Enameled Sanitary Equipment, and is an assurance direct from the manufacturer, that any fixture or part of same, so labeled will be duplicated without charge, should it become defective through imperfect material or workmanship.

When you order or specify "Standard" Plumbing Fixtures look for the "Standard" GREEN AND GOLD Label before fixtures are installed.

Always order or specify by Plate Number and Brand Name, and in case fixture is made in more than one size, specify clearly size desired.

THE "Standard" line of BUILT-IN BATHS shown on the following pages is the latest and most up-to-date in the matter of sanitary perfection, combined with beauty of design and excellence of manufacture.

The "Standard" BUILT-IN BATH is more striking in appearance than the regular tub on feet, and, being built into the walls and floor, reduces cleaning labor to a minimum, as there are no cracks or crevices to collect dirt or moisture.

All of the Baths illustrated are made in ONE-PIECE with the exception of the Adapto which is encased in Porcelain Enameled Plates. They are Enameled All Over, and the outside is as permanent and attractive as the inside.

These Baths, with the exception of the Regular Adapto, are of the low pattern type. They are only about 18 inches high from floor to top of rim, although the depth inside is the same as the regular bath on feet or, about 17 inches.

The Regular Pattern Adapto Bath is 21½ inches high from floor to top of rim with a depth of 17 inches inside.

"Standard" ADAPTO BATH
PLATE NUMBERS

On this and the following page we show the various drillings of the "Standard" ADAPTO Bath, in both Regular and Low Patterns; also plate numbers and the different methods of installation to which this Bath adapts itself.

The LOW ADAPTO Bath has the same dimensions as the Regular Pattern ADAPTO Bath except that it sets 4 inches lower from Floor to Top of Rim. The Tub body is exactly the same depth as the Regular ADAPTO.

To designate Plate Number for LOW ADAPTO Bath use same Plate Number as for the Regular ADAPTO and prefix the numeral 0.

When ordering the ADAPTO or LOW ADAPTO Bath, care should be exercised to use the correct plate number so that the Bath will be drilled to permit the fittings to be placed where desired.
